A D D R E S S .

THE PUBLISHERS, in presenting a New Issue of the POST-OFFICE GREENOCK DIRECTORY, avail themselves of the opportunity to express their grateful acknowledgments to the Merchants, Ship-owners, Shopkeepers, and the Public generally, for the kind assistance which has been received in procuring the various details; and it is hoped the work will be found, on perusal, as free from errors as any of a similar kind.

The Publishers feel confident that the Directory could be greatly improved, and rendered more useful to the Public, were it issued ANNUALLY, instead of every alternate year as at present; and, in compliance with a very generally expressed desire, it is their intention to spare neither labour nor expense in supplying the desideratum. By availing themselves of every description of local and general information likely to prove useful and interesting, they confidently hope that the future issues of the DIRECTORY will obtain the continued support of the community.

TIDE TABLE,

FROM JUNE, 1855, TILL JUNE, 1856.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and, when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and, when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

The influence of the sun on the tides is less than that of the moon; for, observe, that the rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to the moon.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

ECLIPSES IN 1856.

In the year 1856 there will be two Eclipses of the Sun and two of the Moon.

1.—A total Eclipse of the Sun, April 5th, 1856, invisible at Greenwich. Begins on the Earth generally, April 5, 3h. 44m. a.m., mean time at Greenwich. Ends on April 5th, 8h. 16m. a.m.

2.—A partial Eclipse of the Moon, April 19th, invisible at Greenwich.

3.—An angular Eclipse of the Sun, September 28th, invisible at Greenwich.

4.—A partial Eclipse of the Moon, Oct. 13, visible at Greenwich. First contact with the penumbra, 8h. 23m. p.m.; last contact with the penumbra, 1h 26m. a.m., on the 14th October, mean time at Greenwich.

HARBOUR REGULATIONS.

STEAM VESSELS.

I. All steam vessels resorting to the port of Greenock shall have
on board a captain or sailing master, who is an experienced seaman ;
and shall also have a sufficient number of able-bodied and experi-
enced seamen, for the safe navigation of the vessel under a penalty
not exceeding Five Pounds for each offence, to be paid by the person
in command or charge of the vessel. And no steamboat whatever
shall be manned with less than a master, two deck men and a pilot,
exclusive of the engineer and fireman, under the like penalty of Five
Pounds.

II. The Steamboat Harbour master shall have the sole and ex-
clusive power of assigning berths to steam boats of all denon:inations
at the portion of the Customhouse Quay allotted for the use of that
description of vessels ; and no steam vessel shall be entitled to a quay

berth that has not got proper gangways in her bulwarks cut down to the deck, either fore or aft the paddle boxes, which gangways shall be of sufficient width to admit passengers, luggage, coals, ashes, &c., to pass in safety to and from steam vessels lying outside thereof. Masters or others in charge refusing or delaying to attend to this regulation shall be liable to a penalty not exceeding Five Pounds. In stormy weather steamers may be allowed to occupy such berths inside the harbours as the Harbour master may point out; but while the fires are burning steam vessels must be kept as much separate from other vessels as possible.

III. The master or other person in charge of every steam vessel shall, within 200 yards of any of the quays or any works of the Harbour Trustees, slow the engines, and keep at a slow rate, until such steam vessels shall have passed the quays or other works at least 200 yards, under a penalty not exceeding Five Pounds for each neglect. And all steam vessels shall, when a red flag is hoisted on board of any vessel in the river opposite the harbours, also slow their engines within 200 yards of the vessel where such flag is hoisted, under the like penalty not exceeding Five Pounds, to be paid by the master or other person in command or charge of such steam vessel, besides being liable in all damages incurred by neglect.

IV. No ballast, earth, dross, ashes, or other kind of rubbish, shall be thrown or put overboard from any sailing or steam vessel into the river opposite the harbours, under a penalty not exceeding Five Pounds for each offence.

V. All steam vessels, whether entering or leaving the port or harbours, shall pass outside of the warping buoys, when ships or rafts are warping either into or out of the harbours, and in every case must avoid coming in contact with the warps of ships so situated, under a penalty not exceeding Five Pounds for each offence, besides being liable in damages.

VI. No forge bellows, lighted candles, lamps, or fires shall be allowed on board of any steam vessel, or other vessels whatever, in the harbour, after eight o'clock in the evening, or before six o'clock in the morning, except the vessel has just arrived, under a penalty not exceeding Five Pounds sterling for each transgression; and the forge bellows, lights, or fires on board of any such vessels throughout the day, shall be carefully attended and watched by some person on board, under the like penalty. But upon applying to the Harbour Master, and sufficient cause being shown that the use of forge bellows on board during the night is absolutely necessary to enable the vessel to proceed on her next voyage at the time originally announced, it shall be allowed under the special care of an extra police watchman; the parties claiming the privilege paying for the watchman; and that several buckets of water shall be kept in readiness to quench any fire when danger is apprehended.

VII. All masters or other persons in charge of steam vessels plying to the port shall, immediately on fixing the hours of sailing of the said vessels from Greenock, intimate the same in writing to the Steamboat Harbour Master, at his office; and they shall upon no account, either upon the pretence of not arriving in due time or otherwise, alter the period fixed, but shall depart punctually at the times of sailing originally announced, under a penalty not exceeding

Five Pounds sterling for each offence, excepting always cases of accidents happening to the vessels or machinery; in which events the time for sailing announced on the boards shall be immediately altered or suspended. The sailings shall be regulated by the public clock placed on the Steamboat Quay. Vessels engaged in the foreign or coasting trade may remain at the quay until they take on board all goods that may have been laid down from such vessels, which those in charge must do as speedily as possible; but so soon as the goods are on board the vessel must be backed outside another vessel. Masters or others in command refusing or delaying to comply with any part of this regulation, will be liable in a penalty not exceeding Five Pounds.

VIII. All passenger steam vessels shall, when it is dark, on their arrival at, or departure from the quays, have and use sufficient lights, consisting in no case of less than two hand lanterns, so as to enable passengers to get on board or to land with safety; and all steam vessels, when passing up or down, shall, at least within 200 yards of the quays, reduce their speed, so as the loading or unloading of the vessels at the piers or quays may not be interrupted, or in any manner of way sustain damage. All steam vessels shall, when leaving the quay, observe the like precaution of steaming slowly, until they have passed all the vessels lying at the outer piers, under a penalty not exceeding Five Pounds.

IX. The masters and crews of all steam vessels lying nearest the quay shall give free access over the decks of their vessels to all parties going to or from the steamers lying at the outside berth, and also free access for the conveyance of luggage, goods, coals, &c., to and from the said steamers; and all steam vessels shall, when not loading or unloading, have their hatchways and scuttles covered over. The master or other persons in charge of the vessel, neglecting any of these orders shall be liable in a penalty not exceeding Forty Shillings for each offence.

X. All steamers shall have a bowline hitch upon their hawsers or fastening lines, that the lines may be easily thrown over the palls, and which shall be so fastened as not to trip or interfere with the passengers. Masters or others in charge of steam vessels neglecting to comply with this regulation, shall forfeit and pay a penalty not exceeding Five Pounds.

XI. All masters, crews, and other persons, are prohibited interfering with or interrupting passengers going to the steam boat, by endeavouring to induce them to take the passage by their respective boats; but the masters and crews are required to remain either on board their respective boats, or at their gangways, previous to the hour of sailing; and masters and others shall not allow horns or bugles to be sounded until within five minutes of the hour of sailing of the respective boats. Any person neglecting any part of this regulation, shall be liable in a penalty not exceeding Five Pounds.

H. J. ROBERTSON, Sheriff.

November 25, 1850.

REGULATIONS FOR THE GOVERNMENT OF THE
PORTERS OF GREENOCK,

The Provost and Bailies of Greenock, the Town Council thereof, and the Trustees of the Port and Harbours of Greenock, repeal all former Rules, Regulations, and Bye-laws, enacted for the government of the Porters, and the Table of Rates or Fares appointed to be exacted by them; and do hereby, in virtue of the Acts of Parliament 3d Vict. cap. 27, and 5 Vic. cap. 54, enact and ordain the following Regulations and Table of Rates or Fares, to be strictly observed and enforced:—

1st. No person shall be permitted to ply for hire as a Porter within the Town of Greenock, or on the Quays and Breasts thereof, without being licensed by authority of the Provost and Bailies, he having first found caution faithfully to observe and fulfil these Regulations, and observe the Table of Rates hereto annexed; and each Porter shall have constantly affixed to his breast a Badge, specifying his number. All persons contravening this regulation, shall forfeit and pay a sum not exceeding Two Pounds for each offence. All licenses previously granted to Porters and Barrowmen are hereby withdrawn and cancelled.

2d. All Porters shall with diligence and expedition perform the services for which they are engaged, and shall not soil or injure the property entrusted to their charge; and shall conduct themselves with civility and discretion, under a penalty not exceeding Five Pounds for each offence, besides being liable for damages to the party injured.

3d. When a Steam Vessel, just arrived at the Quay, has taken a berth at the outside of another Steam Vessel, the Porters shall not stand on the paddle-box or on the side of the inside Vessel, but arrange themselves in the middle of the inside Vessel; and if the Vessel just arrived occupies an inside or Quay berth, they shall then arrange themselves on the Quay, at least four feet from the edge thereof, till called to be engaged, and permitted to pass on board by the officer attending for that purpose; nor shall any Porter, upon being engaged to carry Luggage or other Goods in the Town of Greenock, or from or to the Quays and Breasts thereof, attempt to transfer such Luggage or other Goods to another Porter, but shall himself fulfil his engagement, and, when required, accompany his employer; and all Porters contravening any part of this Regulation, shall be subjected in a penalty not exceeding Five Pounds for each offence.

4th. No Porter shall embark the Luggage of Passengers going on board of any Steam Vessel until all the Passengers intending to land shall have first landed with their Luggage, under a penalty not exceeding Five Pounds for each offence.

5th. Porters shall not, when unengaged, refuse employment when offered; and if any Porter allege previous employment, he shall,

when required, specify the nature and time of his employment, and by whom engaged.

6th. For the better security of Property and more faithful discharge of his duty, any Porter asking or taking employment when in a state of intoxication, shall be liable to a penalty of Forty Shillings, besides being subject to dismissal from his office as Porter by any of the Magistrates.

7th. All Porters shall, when requested by a Magistrate or Police Officer, assist him in apprehending persons accused of assaults or breaches of the peace, committed in any of the public Streets of the Town, or on the Quays or Breasts or the Harbours. A refusal on the part of the Porter to render such assistance shall, when proved against him, be a sufficient cause for the Provost or any one of the Bailies to deprive him of his license.

8th. The Wheel Barrows belonging to the Porters shall be arranged and stationed, each with the number of its owner's Badge, and his name legibly painted thereon, in a situation to be fixed by the Steamboat Harbour Master or the officers under him, under a penalty not exceeding Five Pounds for each offence.

9th. Porters plying on the Steamboat Quay shall be careful not to permit boys or other idlers to go on board any of the Steam Vessels, and, if necessary, they shall call for assistance on the Officer on the station, and on the Masters and Crews of the Steam Vessels, to aid them. Persons contravening this Regulation, shall pay and forfeit a sum not exceeding Forty Shillings for each offence.

10th.—No Porter shall demand or take a higher sum for his services than the Rates or Fares stated in the Table annexed to these Regulations, and each Porter shall, when plying, have in his possession a copy of these Regulations and the Table of Rates or Fares, and shall at all times produce the same to the person employing him when required, and that under a penalty not exceeding Five Pounds for each offence.

11th. Any one of the Magistrates sitting in the Police Court, on sufficient cause shown to him, may declare the Bond of Caution granted for any Porter forfeited, and deprive the offender of his License and Badge.

12th. All fines and penalties incurred under the preceding Regulations, shall be sued for before the Magistrates, in the Police Court, and recovered, at the instance of the Procurator Fiscal of the Town of Greenock; and upon the conviction of the offender, it shall be lawful for the Magistrate, as presiding Police Judge, to pronounce sentence, subjecting such offender to imprisonment in the Bridewell or Prison of Greenock, for any period not exceeding sixty days, unless payment of the fine inflicted be sooner paid.

13th. A Printed Copy of these Regulations, and the Table of Fares annexed, shall be placed in the Cabin and Steerage of each Steam Vessel, for the information and guidance of the Public.

JOHN KERR GRAY, Town Clerk.

POSTAGE STAMPS, &c.

As the system of paying Inland Letters has been done away with, the public must use Postage Stamps.

Stamps may be procured at the General Office, 3 Church Place, the Stamp Office, and the Two Receiving-Houses.

The Penny Labels,	~~~~	~~~~	~~~~	at 1d. each
The Twopenny Labels,	~~~~	~~~~	~~~~	at 2d. „
The Sixpenny Labels,	~~~~	~~~~	~~~~	at 6d. „
The Tenpenny Labels,	~~~~	~~~~	~~~~	at 10d. „
The Shilling Labels,	~~~~	~~~~	~~~~	at 1s. „
The Penny Envelopes,	~~~~	24 for 2s. 3d.,	or 2 for 2½d.	

When the value of Stamps on a Letter is less than the amount of the postage to which it is liable, the Letter will be charged double the amount of such difference on delivery.

Stamps may be used for Printed Votes and Proceedings in Parliament, and on Foreign Colonial, and Ship Letters, outwards. Letters for parts abroad posted with Stamps of less value than the full amount of Postage, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of Stamps and the proper rate of Postage; but letters addressed to places abroad, to which prepayment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to newspapers in those cases where they are liable to postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected letters are charged an additional postage for each redirection, according to the Prepaid Scale,—except those addressed to any Town and redirected to any place subordinate to, or within the delivery of that Town ;

Letters addressed to any subordinate Town and redirected to any other subordinate Town, both being under the same Post Town.

Letters addressed to a subordinate Town and redirected to its principal Post Town, provided they are redirected by an Officer of the Post Office.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy. The purpose of wetting the label wholly, is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

PREPAID RATES OF POSTAGE.

Letters not exceeding Half an Ounce in weight, 1d ; One Ounce, 2d ; Two Ounces, 4d ; Three Ounces, 6d, and so on, two rates being added for every ounce. Inland letters or packets put unpaid into the letters-boxes, are charged double the prepaid rates of postage. Letters having an insufficient amount of stamps are charged with double the amount of the difference between the stamps affixed and the prepaid rates.

LIMITATION OF WEIGHT.

A letter to pass unpaid by the post must not exceed Four Ounces. In the event of any unpaid letter above the weight of four ounces being posted, it will be charged with double the prepaid rate of postage ; if insufficiently paid, it will be charged with double the amount of the difference between the stamps affixed and the prepaid rates, and thus charged, “shall and may be detained and opened, and, at the option of the Postmaster-General, shall be either returned or given up to the sender thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination.”
— *Treasury Warrant*, 22d Oct., 1847.

LIMITATION OF SIZE.

A letter to pass by the post, either paid or unpaid, must not exceed the dimensions of twenty-four inches in length, or breadth, or width, or depth. Any letter above these dimensions may, if fully paid, be detained and opened, or forwarded at the option of the Postmaster-General. Any letter unpaid, or insufficiently, will be taxed precisely after the scale of charges mentioned in the preceding paragraph, as applicable to unpaid letters exceeding four ounces weight, and thus charged, be either detained and opened, and returned to the sender, or forwarded, at the option of the Postmaster-General. The only exception to the foregoing regulations as to size and weight are in the case of,—1. Parliamentary proceedings or addresses to her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. 4. Letters or packets to or from public departments or public offices in her Majesty's service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the Post unpaid, which, from any cause whatever cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a magistrate.

REGISTRATION.

Letters, whether containing Coin or not, can be registered on payment of a fee of 6d, in addition to the Rates of Postage, Inland, Colonial, or Foreign. On those to France, or passing through France, at double the usual rates of Postage. On those to Prussia, or passing through Prussia, the Prussian Registration Fee of 3d must be paid in addition to the British. On those to Russia and Poland, via Belgium, an additional rate of 3½d under ½ oz., 7d under 1 oz., &c. Thus, for a letter not exceeding ½ oz., the charge will be ordinary Postage, 11½d; additional Postage, 3½d; British Registration Fee, 6d; Prussian do., 3d; total, 2s. A printed acknowledgment will be given to any person registering a letter. Registered letters will be taken at the Bar Window and the Receiving-houses within half an hour of the closing of the Box for the particular Mail by which they are to be despatched. Letters for Registration addressed to places within the United Kingdom, must be paid by affixing a sufficient number of Stamps, and the Registration Fee must be paid in Stamps; when addressed to parts abroad, they may be paid either in money, or by means of postage stamps.

In cases of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the port of shipment. Letters, however, addressed, to France, and letters passing through France, are exceptions to this rule, the French Post-Office undertaking to provide for their security till they shall have been delivered, if addressed, to France, and as long as they remain in the French territory, if passing through France.

The arrangements for carrying out the system of registration have been made with the view of insuring the safe delivery of Registered

Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by Registration; and persons having occasion to send by post small sums, are recommended to make use of

THE MONEY ORDER OFFICE,

which is open every week-day, fast-days excepted, from 9 a.m., to 6 p.m. The charge for such orders is 3d on sums not exceeding two pounds, and 6d on sums between two and five pounds. No Order will be given for sums beyond this amount; but if the sum to be transmitted exceeds five pounds, as many Orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an Order is payable is inconvenient, if the Order is receipted (his or her name written in full), and the person presenting the Order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person unless the Christian name of such person can be given by the party obtaining the Order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of Firms the initials only are required.

A Money Order must be presented for payment before the end of the Second Calendar Month after that in which it was issued (for instance, if issued in January, it must be presented before the end of March); otherwise a new order will be necessary, for which a Second Commission must be paid; and if it be not presented for payment before the end of the Twelfth Calendar Month after which it was issued, the money will not be paid at all,

After an Order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

VICE-PRESIDENT:

TREASURER:

ROBERT WYLIE, Esq. (of Messrs Wylie & Lochhead.)

THIS SOCIETY, which has been in operation since August, 1852, is composed of Bankers, Manufacturers, Merchants, and Traders in Glasgow and elsewhere throughout the United Kingdom, associated together for Mutual Protection.

The Society's objects are:—

1. To enable Members to obtain authentic information as to the standing and trustworthiness of persons proposing to trade, which, by the co-operation of between forty and fifty similar Societies, can be procured from nearly 1000 different places, both at home, in the colonies, and abroad.

2. To protect Members from the designs of the fraudulent, by extensively circulating information regarding the operations of such parties.

3. To recover for the Members, in the cheapest and most expeditious manner outstanding over-due debts, which is done for a Commission on the amount recovered, or for a subscription, according to the number of debts handed in for recovery, irrespective of their amount.

4. To originate and support improvements on the laws affecting Trade and Commerce, and on the Constitution of the Courts of Law.

The Executive Committee of this Society have for some time been negotiating with the other Trade Protection Societies in Scotland, in order to effect a weekly issue to the Members, at the lowest possible charge, of the recorded Protests on Bills and Promissory Notes, and the Decrees in absence in the Court of Session and the Sheriff Courts, their arrangements for which are now completed.

The attention of the Mercantile community is specially directed to the fact, that, although the Offices of the Society are in Glasgow, its membership and operations extend throughout the United Kingdom.

Full information as to the Society's objects and operations may be obtained on application to Messrs Peter W. Dixon and Jas. Riddell, Joint Secretaries, Glasgow; or here, to

This Office, with a large and influential Proprietary in Glasgow and Greenock, is the

Only Fire and Life Company under Local Management.

LIFE DEPARTMENT.

80 PER CENT. BONUSES.

SPECIAL NOTICE.

IN this Department, this Office offers advantages to Insurers unsurpassed by any other Company, while the Premiums charged are lower than the majority of other Companies, as may be seen by a comparison, while the great extent of the Fire Business of the Company enables the Directors so to apportion the expenses of management, as to charge the Life Department with its proper costs only, thus giving Assurers with The Lancashire Insurance Company all the *real* benefits offered by a *Mutual Office*, without any of its drawbacks.

Medical Fees.—All Medical Fees and other Charges paid by the Company.

Stamp Duties.—THE LANCASHIRE was one of the first Offices to announce to the Public that it does not charge the Stamps on Policies, which are issued FREE OF ANY EXPENSE WHATEVER beyond the Premium.

Days of Grace.—Thirty Days of Grace allowed for the Renewal of Policies, and Claims admitted for Deaths occurring during those days, provided the Premiums be paid before their termination.

Policies can be Revived within Three Calendar Months of the Premium being due, on proof of health, and payment of such fine as the Board of Directors may think reasonable.

Surrender of Policies.—A liberal Allowance will be made for the Surrender of Policies no longer required to be kept in force, or *new*

Policies for equivalent amounts, *free from future Premiums*, will be substituted when Assurances have been in force three or more years.

Policies Indisputable.—Policies will never be disputed on the ground of mere informality, *nor in any case except that of fraud*.

Non-Forfeiture of Policies.—Policies will not be forfeited in the event of the Assured committing suicide, dying by his own hands, or by duelling, or the hands of justice, in cases where they have been *bona fide* assigned to third parties for a valuable consideration, and of which assignment notice shall be given at the Office, and duly admitted by the Company, not less than one month previous to the death; nor in the case of one person insuring the life of another.

LOANS ON PERSONAL SECURITY.

An important feature in Life Assurance is, that it can be made available for the *present* benefit of the Assured. It frequently happens that a person requires a temporary advance, which this Company is prepared to grant on the party effecting a Life Assurance with the Office for double the sum to be borrowed, and obtaining two or more responsible persons to join him in a bond for the due re-payment of the principal and interest and the premiums on the Life Policy, by annual or half-yearly instalments, in a period not exceeding five years.

FIRE DEPARTMENT.

50 PER CENT. BONUSSES.

This Office undertakes to Insure all kinds of Property at the lowest rates commensurate with the nature of the risk.

Rates Mercantile.—Sugar House, Iron and Wooden Shipping, and other Rates according to the latest tariffs.

Gas Explosion.—Losses occasioned by Gas Explosion settled.

Lightning.—Losses by Fire occasioned by Lightning will be paid.

Days of Grace.—Fifteen Days of Grace for Renewal of Policies, with all the other facilities, will be granted.

Losses promptly and liberally settled.

Prospectuses, Forms of Proposal, and every other information will be afforded at the Offices and Agencies of the Company.

NORTH BRITISH

Insurance Company,

Established in 1809.

INCORPORATED BY ROYAL CHARTER.

Capital, One Million.

Head Office, 64 PRINCES STREET, EDINBURGH.

THE Profits are allocated on the *Life Insurance principle*,—each Policy drawing in proportion to the sum Insured, and the number of annual Premiums paid during the period of Division. When it is remembered that the Bonus is declared as an addition to the sum Insured, *payable when the Policy becomes a claim*, it is seen that the Age of the Assured is taken into account, for the present value of the Bonus varies with the age of the party.

FOR EXAMPLE:—A Bonus addition of £100 to the Policy of a person now aged 30, is worth, in cash, or present value, £31 6 8
 Whilst a like addition to the Policy of a person now aged 60, is worth, in cash, or present value, 58 19 2

By this mode of allocation, therefore, each one draws exactly the sum due to the Premiums he has paid, and gets the full and fair advantage of his longevity, at whatever age he insures, and to whatever age he may attain.

The Bonus declared for the Septennial Period ending 31st December, 1851, was at the rate of one and a quarter per cent per Annum on the sums Insured, and on the previous Bonus additions, with a prospective Annual Bonus of one per cent.

Offices that divide their Profit on the *Tontine principle*, may hold out the promise of larger Bonuses, but the chance of attaining them is, of course, proportionally less.

The Premiums are moderately rated at all ages, and may be so adjusted as to suit the objects and convenience of parties.

IMPERIAL LIFE ASSURANCE

FOR INSURANCE OF

LIVES & ENDOWMENTS OF CHILDREN,

1, OLD BROAD STREET, LONDON.

Instituted A.D., 1820, by Deed of Settlement, and further Empowered by Act of Parliament 4 and 5 Victoria, Cap. 94, 1841.

Persons insuring in this Office will derive two important advantages. First, the most effectual security is provided for payment of Losses. Not only will the premiums received upon Policies be carefully invested and accumulated for that purpose, but a Capital of £750,000 has been subscribed to answer any possible deficiency. Secondly, upon every Policy effected for the whole term of life, the insured will participate in the Profits of the Company, by having periodical additions made to the sums insured to the amount of *Four-fifth Parts* of such clear Gains and Profits. At the same time they will be protected by the ample Capital above mentioned from any chance of loss.

Life Assurance is admitted to be an object of great importance to every class of Society, but more especially to persons in Professions and Trades, or having Offices, Employments, Estates, or other Incomes, which may cease or terminate with their lives, since it enables them, out of their annual income, to secure a capital at their decease to their Families and Representatives, which, owing to the uncertainty of life, they might not be enabled to realise by industry or economy. A fund for a MARRIAGE SETTLEMENT may thus be insured by those who are not possessed of independent property. Fines payable on Leases or Copyholds for Lives, may be provided for by insurance. Persons entitled to Reversions upon the contingency of surviving others, may secure the value of the contingency. Creditors may secure debts by insuring the life of the Debtor. And various other benefits are derived from the Insurance of Lives. Endowments for Children, on their attaining a given age, may be purchased of the Company, either by gross or annual payments.

If any Person should become desirous of discontinuing an Insurance effected at this Office for the whole term of Life, the Company will purchase the interest in such Policy at a fair price. All claims upon Policies will be paid within three months after satisfactory proof shall have been produced of the death of the Person upon whose life Insurance has been effected. No Entrance-money nor Fine of Admission is charged, except in the case of non-appearance at entry.

II.—A service-pipe will be laid at the expense of the Works, from the main pipe to line of street, and if necessary to continue it farther, it will be optional to consumers, either to pay for the same, or 7½ per cent. annually on the cost.

III.—All interior fittings of every description to be done at the expense of the Proprietor, by gas pipe fitters alone, who have been duly authorised as such by the Committee of Management. The gas pipe fitters, on no account, to proceed to fit up meters, or to make any alteration in their situations, without a special order from the Manager. The fittings to be approved of before the gas is let on, and subject at any after period to the inspection of the Manager, or any other person appointed by him for that purpose, who is to have access at all reasonable hours.

IV.—No gas meters will be allowed to be used but such as are furnished by the Works; the expense of fitting them up in all cases will have to be borne by the consumer. It will be optional for consumers either to purchase or rent the meter; if purchased, it will be given at prime cost, and all repairs and cleansing will have to be borne by the Proprietor. When returned by him to the Works, a deterioration of 1s. per annum for the smallest size (other sizes in proportion) will be deducted from the selling price of the meter at the time of re-purchase. If rented, the charges will be as follows:—10 in. 1s. 6d.—No. 1, 2s.—No. 2, 4s.—No. 3, 5s.—No. 4, 6s.—No. 5, 7s—all per annum; in this latter case the cleaning and repairs will be at the expense of the Works.

V.—No transference of meters can take place until the amount of gas used by the previous occupant be paid for, at least to the extent of the value of the meter, when it belongs to the consumer.

VI.—The Manager, or any other person appointed by him, to have free access at all reasonable hours to ascertain the quantity of gas consumed; to supply the meter with water; to examine the same, and, if necessary, remove and cleanse it at the expense of the owner. No person will be allowed, on any account, to remove or disconnect the meter but the servants in the employment of the Works.

VII.—If at any time it be ascertained that the meter has not registered the quantity of gas consumed, or from any other cause it may be found necessary to supply gas temporarily without meter, the Manager to have the power to charge for the gas consumed during the time it was supplied, and not correctly registered, in the same proportion as the consumption was either before or after that time.

VIII.—The Committee of Management will not hold themselves responsible to consumers for loss arising from suspension of the supply of gas, whether such suspension is occasioned by accident to the Works, or from any other unavoidable cause.

IX.—The Committee reserve power, in case of fraud by consumers, to discontinue the supply of gas, without any previous intimation being given.

INSTRUCTIONS TO CONSUMERS.

N.B.—During the continuance of severe frost, all meters placed in exposed situations should be wrapt round with a piece of flannel or woollen cloth, to prevent the water in the meter from freezing, and in order to insure a supply of gas.

All burners should be cleaned once every month, in order to preserve equality in the height of flame, and to prevent smoke. Argands, union, and single jets may be cleaned with a piece of strong bristle, batwings with a piece of watch spiring or cut paper. When a burner becomes enlarged through length of use or frequent cleaning, it should be removed and replaced by a new one.—If these instructions are not attended to, much smoke and a useless expenditure of gas will be the consequence.

It is particularly requested that when a smell of gas is felt, immediate notice thereof, verbally or in writing, should be left in the office at the Gas Works, 27, Crawford Street, Glebe, and every precaution should in the meantime be taken to prevent any one approaching with a light the situation where the gas is accumulating, especially if the smell arises from a cellar or any other confined place.

Consumers are specially requested to shut the Stop-Cock before the Meter when not using Gas.

JOHN FINLAY,
FURNISHING IRONMONGER,
 46, BUCHANAN STREET, GLASGOW.
 INVENTOR and PATENTEE of the IMPROVED RADIATING STOVE, &c.

THE annexed sketch shows a sitting-room where one of the Patent Grates is fixed. The gentleman is in the act of adjusting the door or damper. This is done by pushing the door back or drawing it forward, and thus opening or shutting proportionally, and with one movement, the upper and lower escape apertures for the products of combustion. The lower draught at *c* is what is technically called a back flue; from its position it draws the disengaged gases either through or right over the burning fuel, which thereby become enflamed, making a cheerful blaze, and thus dispelling or consuming all smoke. From the powerful radiation of heat obtained by this grate, and the perfect command over the chimney draught, its economy follows as a matter of course.

In summer, fire-places in general present a dreary forlorn aspect, by their wide open appearance. Now, this grate is shut by simply drawing forward the back, making the fire-place look smaller and less empty; and giving the apartment a finished appearance by its elegant and simple form. The fire-draught being thus easily shut, all currents down the chimney are avoided, and all dust, soot, or back smoke is confined within the vent. This feature is of the first importance where apartments are well furnished. And where apartments are ventilated, this is the only grate with an open fire with which it can be accomplished in a scientific way, without producing cold currents or lessening the heat of the apartment. In the annexed sketch, the lady is shown adjusting the induction above the door. This invention J. FINLAY has now extensively applied with perfect success, together with Moore's Patent Glass Inductions, for Stair Windows, Greenhouses, Conservatories, Churches, Chapels, and Public Buildings, for which he is the Sole Agent.

CAUTION.

Mr Urie having obtained her Majesty's Royal Letters Patent for Improvements in Photography on Glass, &c., &c., hereby Cautions all parties against future interference with his inventions.

THE PERFECTION OF PHOTOGRAPHY.

Not many years ago, twenty or thirty minutes were required, in the brightest sunshine, without ever moving the eyelids, to obtain even an ordinary daguerotype portrait; whereas now, by the vast improvements Mr Urie has recently accomplished in his extensive photographic establishment, 35 Buchanan Street, Glasgow, he is producing exact likenesses almost instantaneously, in any kind of weather. Mr Urie has evidently watched with the eye of a genius every movement in the progress of the art in America, France, and Britain and appears to have spared no expense or exertion in having superior appliances, and every chemical improvement, for maintaining the pre-eminence he has justly acquired in his profession. The life-like appearance of his patent glass portraits is exquisite. All who desire to see the superiority and perfection of Mr Urie's performances should visit his splendid saloons.

RESTORATION of the HAIR in the Course of a FEW DAYS, when suddenly lost from Illness or any other cause, is ensured by the use of

GATENBY'S EXELCIOR DETERGENT,
AND
MEDICATED COLD CREAM,
Thereby avoiding the trouble of Shaving the Head.

In using the Detergent, the head must be washed with water. Where that is not agreeable, the free use of

GATENBY'S THISTLE EXTRACT

Will more slowly but surely effect a complete Restoration of the Hair.

In bringing these articles before the notice of the public, William Gatenby, as a guarantee of their utility, would respectfully refer to his successful and never-failing treatment in the Restoration of the Hair when lost from Illness of any sort, as also SCALD HEAD, RINGWORM, and other External Diseases, while resident in the West of Scotland.

All of Gatenby's other Preparations for the Toilet are made from the Best and Purest Materials, and are most effectual for the various purposes intended. The following are especially recommended:—

PRINCE ALBERT'S AMBROSIAL SHAVING CREAM,
For rendering the operation of Shaving agreeable.

The Queen of Beauty's Golden Balsam of Neroli,
For dressing the Hair, assisting it to curl and keep in curl during exercise or damp weather; it is also very effectual for preventing the Hair falling off or turning grey till the latest period of life, and removes all manner of dandriff or other impurities from the roots.

Pure Marrow Oil, and Castor Oil Pomade,
For Nourishing and Beautifying the Hair. Excellent for using in the Nursery.

GATENBY'S HAIR DYE.

For changing the colour of the Hair to a Beautiful Glossy Brown or Black, by an easy and simple process, which will instantly produce the colour required in one preparation. In cases at 3s, 5s, 9s, and 16s.
